- Qualifi Quality Assurance Standards

## Plagiarism and Collusion

In submitting the assignment Learner's must complete a statement of authenticity confirming that the work submitted for all tasks is their own. The statement should also include the word count.

Your accredited study centre will direct you to the appropriate software that checks the level of similarity. Qualifi recommends the use of <https://www.turnitin.com> as a part of the assessment.

Plagiarism and collusion are treated very seriously. Plagiarism involves presenting work, excerpts, ideas or passages of another author without appropriate referencing and attribution.

Collusion occurs when two or more learners submit work which is so alike in ideas, content, wording and/or structure that the similarity goes beyond what might have been mere coincidence

Please familiarise yourself on Qualifi's Malpractice and Maladministration policy, where you can find further information

## Referencing

A professional approach to work is expected from all learners. Learners must therefore identify and acknowledge ALL sources/methodologies/applications used.

The learner must use an appropriate referencing system to achieve this. Marks are not awarded for the use of English; however, the learner must express ideas clearly and ensure that appropriate terminology is used to convey accuracy in meaning.

Qualifi recommends using Harvard Style of Referencing throughout your work.

## Appendices

You may include appendices to support your work, however appendices must only contain additional supporting information, and must be clearly referenced in your assignment.

You may also include tables, graphs, diagrams, Gantt chart and flowcharts that support the main report should be incorporated into the back of the assignment report that is submitted.

Any published secondary information such as annual reports and company literature, should be referenced in the main text of the assignment, in accordance of Harvard Style Referencing, and referenced at the end of the assignment.

## Confidentiality

Where a Learner is using organisational information that deals with sensitive material or issues, they must seek the advice and permission from that organisation about its inclusion.

Where confidentiality is an issue, Learners are advised to anonymise their assignment report so that it cannot be attributed to that particular organisation.

## **Word Count Policy**

Learners must comply with the required word count, within a margin of +10%. These rules exclude the index, headings, tables, images, footnotes, appendices and information contained within references and bibliographies.

When an assessment task requires learners to produce presentation slides with supporting notes, the word count applies to the supporting notes only.

## **Submission of Assignments**

All work to be submitted on the due date as per Centre's advice.

All work must be submitted in a single electronic document (.doc file), or via Turnitin, where applicable.

This should go to the tutor and Centre Manager/Programme Director, plus one hard copy posted to the Centre Manager (if required)

## **Marking and grades**

Qualifi uses a standard marking rubric for all assignments, and you can find the details at the end of this document.

Unless stated elsewhere, Learners must answer all questions in this document.

# Assignment Question

## Scenario

You have been asked to implement a professional development training for instructors at your organisation with the goal of increasing teaching effectiveness. You have been charged with leading the change management process to develop, implement and evaluate this new training program.

## Task

Provide an in-depth 2000-word analytic report:

- Describe the data collection process you would use to help arrive at the need for the training, i.e. the topic and focus for the training program. Include a list of stakeholders (by title only) who would be instrumental in helping diagnose the need. Perform a SWOT analysis and describe other diagnostic methods you might use to arrive at the need (topic and focus).
- Create a detailed change management plan which includes the involvement of all stakeholders, identifies resources needed, includes a detailed communication plan and suggests a realistic timeline for the change. Support the plan by referencing at least one model of change management.
- Identify potential barriers and resistance to implementation of the training program and address strategies to overcome those barriers and to handle any anticipated resistance.
- Although you will not actually implement the training program, provide a plan for monitoring and evaluating the training program in order to determine its impact on teaching effectiveness (and student learning). Include data collection tools and methods and support your evaluation plan by referencing recognised methods.
- Provide scholarly evidence and apply relevant theoretical models and frameworks in your report to support your plan.
- Cite sources according to a recognized academic referencing style (Note: Qualifi recommends using Harvard Style of Referencing throughout your work).
