Title of Thesis	<p>Reasons for topic selection</p> <p>Briefly explain the reasons why you chose this topic. What are your research interests? What do you hope to achieve with this research?</p>	5	
Problem Statement	<p>Clearly define the problem that your research is addressing. What are the specific issues that you are trying to understand or solve?</p>	5	
Research Objectives	<p>Research Questions & Hypotheses</p> <ul style="list-style-type: none"> ● State the specific objectives of your research. What do you hope to accomplish with this research? ● State the research questions and hypotheses that you will be testing in your research. 	5	
Research Methodology	<p style="text-align: center;">Primary Research – Qualitative, Quantitative Research Design Secondary Research</p> <p>Describe the research methodology that you will be using in your research. What methods will you use to collect and analyze data?</p> <p><u>Primary Research:</u></p> <ul style="list-style-type: none"> ● What are the qualitative and quantitative methods that you will be using to collect primary data? 	15	

	<ul style="list-style-type: none"> • How will you ensure the validity and reliability of your primary data? <p><u>Research Design:</u></p> <ul style="list-style-type: none"> • What is the research design of your study? Will you be using a case study, a survey, an experiment, or another design? • How will you ensure the internal and external validity of your research design? <p><u>Secondary Research:</u></p> <ul style="list-style-type: none"> • What secondary sources will you be using in your research? • How will you ensure the quality and reliability of your secondary sources? 		
Literature Review	Briefly review the relevant literature on your topic. What are the key findings of previous research?	5	
Analysis and Findings	<p style="text-align: center;">Interpretation of Findings Application of Theoretical Framework Link to Problem Statement & Research Objectives</p> <ul style="list-style-type: none"> • Analyze the data that you have collected. What are your findings? • Interpret your findings. What do they mean? • Apply the theoretical framework to your findings. How do your findings support or refute the theory? • Link your findings to the problem statement and research objectives. How do your findings address the problem that you are trying to solve? 	15	
Discussion & Conclusions	<p>Recommendations</p> <ul style="list-style-type: none"> • Discuss the implications of your findings. What are the broader implications of your research? 	25	

	<ul style="list-style-type: none"> • Make recommendations for future research. What are the next steps that should be taken in this area of research? 		
Implementation Plans	If applicable, describe how your findings could be implemented in practice. What are the implications of your research for policy makers, practitioners, or other stakeholders?	25
